How often has the Patriot quoted in heartfelt admiration the above lines, breathed as they are through the very soul of poetry; and yet how much more frequently has the Politician, in practice, igmored its ennobling sentiments, while he strives to worm himself along the crooked path to position and emoluments, without ever succeeding to reach the first worthy round of the "Ladder of Fame." And why is it? Have the great principles, for which those bright and glorious spirits who struggled in the early, yet dark, hours of our National existence, failed to occupy the public mind, and prove incentives in carrying out that grand work so wonderfully conceived --- "Free and equal rights to all mankind"that grand scheme, which made our country the asylum of the world?

The Tribune's Matamoras correspondent of August 14th, says he has bad a long conversation with Gen. Delon, of the liberal army. They have no money, arms, ammunition, clothing, or even provisions; the last want is so much lelt that large bodies of men can not keep the field. It is only by engether for short periods. Delon told the writer that he and others had to beg them by all they held dear to keep to gether, and that he has seen men lying on the ground moved to tears by the words of their leaders. General Carnajoat, was sometime ago sent by President Juarez as Envoy to the United States, with full powers to enter into terms with public, or private parties, for aid to Mexico ; he carried with him blank forms signed by the President for every purpose, and this officer is looked for daily; then it will be learned how far he has met with success in his mission. The same correspondent says, about 2 o'clock, a. m , to-day, a dash was made by a small body of men under orders of Cortinas, against the point of defenses of this city; it was easily repulsed. The firing in the dark was very brisk. The commandant, Neas. with his special arm of mounted rifles, has marched upon Caderia. Firz Hugh Leptow, in his overland trip to California, found between Utab and the Humboldt Mountains, a large desert composed, as he says, of "sand and snowy alkali." He describes it as one of the most dismal and forbidding spots that was ever traversed by the foot of a man; but in view of the extension through it of the Atlantic and l'acific Railroad, be suggests an interesting

possibility as to its future. He says: In its crudest state the alkali earth of the desert is sufficiently pure to make violent effervescence with acids. No elaborate process is required to turn it into commercial soda and potash. Coal has already been found in Utah. Silex exists abundantly in all the desert up-lifts. Why should not the greatest glass works in the world be reared along the desert section of the Pacific road?—and why should not the entire market of the Pacific coast be supplied with refined al-kalies from the same tract?

THE Theatrical season closed here for the present. About a month from now the Salt Lake Theater will be reopened, for the fall, with Mrs. Hayne, Mr. Waldron, and the members of the Amateur Dramatic Association who have heretofore beld forth there. In the meantime Managers Caine and Clawson intend improving the "acoustics" of the establishment. over the proscenium and stage, so as to help the hearing at all points of the bouse. This will prove a "consummation devoutly to be wished," we think, by all the babitues of the house.

Mr. BLAISDELL, Manager of the "Swiss Bell Ringers," returned here yesterday morning, to arrange for the appearance of the troupe, at the Salt Lake Theatre next Saturday nights Their entertainment will be interesting and unique, for Salt Lake City.

P. S. Since the above was put in type we were informed by a friend from town that the Swiss Bell Ringers, numbering eleven excellent musicians and vocalists, with Miss Clara, the people's favorite, have arrived, and will appear at the Salt Lake Theatre to morrow. Friday night. and also on Saturday night. Their programme will appear to-morrow morning when you will be informed more fully of their "novelty, variety and merit.'

MRS. HAYNE'S BENEFIT--last Tricsday evening, at the Salt Lake Theater, was a bumper. At least a thousand dollars was in the bonse. The beneficiaire's impersonation of Lucretia Borgia was a truly great and glorious piece of acting, of that terrific character. Her speech, on being enthusiastically called out, was worthy of the talented scholar and star artiste. In brief, it might be pronounced the quintescence of refined rhetoric, improvised with an elegance of diction and appropriateness of idea only to be appreciated upon being beard. Mr. Waldron Mr. Potter and others of the cast, sustained their roles remarkably au fait. In The Rough Diamond. Mrs. Hayne made a merry "Margery." and Mr. Mortimer a splendid "Gousin

"ROAD AGENTS" AGAIN .- By private letter from Virginia, Montana, dated August 30th, we learn from a reliable source that trains and squads of travel to the States are careful to look out for rascally "road agents," as they roll along from Virginia down to Bannack and Port Neuf. A few days before the above date; a train was threatened by a party of these higiwaymen. On the 28th ult., within twenty-five miles of town, (Virginia) two teams were attacked by four fellows with blackened faces. The two men having the teams were named Blodgett and Taylor. The "agents" killed Blodgett and robbed him of \$640. Taylor escaped by jumping out of the wagon into the brush. These two travelers, stopping on the roadside to get poles for wagon tongues. saw the four robbers approaching on foot, and jumped into their wagons. Presently the robbers fired, fatally for Blodgett. This man belongs to Ogden Hole, in this Territory.

Ho! FOR THE EAST. - They say there is an exodus of folks from Montana and Idaho going book to "America" this season. John Clark's mammoth train that left Virginia City, Monday last, has a large lot of families with it who want to visit home this winter. A. Chaplin's train, just passing here, has forty passengers, for Colorado and the States, but chiefly for the latter. By the Boise City Statesman we leafn there's competition in the business of advertising for "passengers for the States." One A. Laven-barg gives notice that he will start from: there with "a train of coaches, oarriages, baggage wagons and saddle animals," for Omaha, charges \$100 through. And one Anthony Grabal, disinclined that Lavenbarg should grab all to himself, advertises his facilities of "light fourmule wagons," for the Missouri, fare only \$75. "A Marvel in Literature" is the test to a fact worth chronicling, as showing the tendencies of the age. It is the production of a complete copy of "Bunyan's Pilgrim's Progress" for one penny. It is warranted to contain every word, including a memoir of the author, also. Scripture references.

Less than \$230,000,000 of the Loan authorized by Congress are now on the market. This amount, at the rate at which it being absorbed, will all be subscribed for within sixty days, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of country may be offered facilities for taking the Loan, the National Banks, State Banks, and drivate Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which the receive orders. "A Marvel in Literature" is the author, also, Scripture references, and a frontispiece of John Bunyan in prison. No orders are taken for less than one hundred copies. Third Series. \$230,000,000

By authority of the Secretary of the Treasury, the underlighed, the General subscription agent for the sale of United States securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent.

7.30 LOAN.

These notes are issued inder date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into U. S. 5.90 Six per Cent.

Gold bearing Bonds.

The Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, from County, and Municipal taxation, which adds from one to three per cent. per annum to their value, according to the rate levied upon other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent, a-One cent per day on a \$50 note. Two cents per day on a \$100 note; Ten cents " " \$500 "

Twenty cents " " \$1,000 " One Dollar " " " \$5,000 " Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.

The notes of this Third Series are precisely similar in form and privileges to the Seven Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 73-10th in currency. Subscribers will deduct the interest in currency on to July 15th, at the time when the subscribe.

The delivery of the notes of this third series of the seven thirties will commence on the first of June, and will be made promptly and continously after that date.

The slight change made in the conditions of this THRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.
